October 19, 2007

Dear LCSI site license holder,

If you haven't already heard, LCSI has an inexpensive way for you and your students to continue using the same software that's being used in your classroom - at home! It's through LCSI's **Home Use Option**.

**What is LCSI's Home Use Option?**

Because your school is a registered LCSI site license holder, LCSI has a special offer for your students. They can now purchase single copies of any LCSI software at unbelievably low prices for use at home. For example, MicroWorlds EX normally sells for \$99, but with the **Home Use Option** your students pay only \$37 each. That's a 63% saving! **As an added bonus**, our prices have dropped to better reflect the rising Canadian dollar.

**As you know, learning shouldn't stop at the school door...**your students can continue the projects they began at school using the same software at home.

**New!** We have a **special offer\***. For orders that have a sub-total of:

\$500 – the school will receive a \$50 credit towards its next LCSI purchase

\$1,000 – the school will receive a \$100 credit towards its next LCSI purchase

\$1,500 – the school will receive a \$150 credit towards its next LCSI purchase

I have included a sample Order Form that you can photocopy and send home with your students. To find out all the details, read the enclosed information sheet entitled **Frequently Asked Questions** or contact us at [info@lcsi.ca](mailto:info@lcsi.ca).

I'm sure that after you've reviewed the enclosed materials, you'll be contacting our customer service group to take advantage of this offer. We are looking forward to your calls at 1-800-321-5646 or via e-mail at: [info@lcsi.ca](mailto:info@lcsi.ca).

Yours very truly,

Michael A. Quinn  
President

## Frequently Asked Questions

### Q. What should I tell parents?

- A. Explain to parents that this is one more way that learning can continue at home. The Home Use Option lets students continue using these products at home and reinforces ideas introduced at the school. For MicroWorlds users, there are dozens of student activities to explore in the Project Library section of our website ([www.lcsi.ca](http://www.lcsi.ca)).

A Home Use Option package is also a great gift idea for nieces, nephews, etc.

### Q. What type of documentation or packaging do the students get?

- A. In order to keep prices low, we've eliminated expensive and unnecessary packaging and printing costs. All the titles that we offer come in generic packaging (not a fancy box) and have their documentation stored on the CD ROM. You or your students can print unlimited copies.

### Q. What do I need to do?

#### A. Step 1:

- Fill in the following information on the enclosed sample:
  - To whom the parent should make the check payable (the school name or the teacher or the PTA, for example)
  - sign your name
  - the date that you'd like orders to be returned to you
- Make photocopies for your students to take home.

#### Step 2:

- Collect all the order forms from your students.
- Fill in LCSI's Home Use Option School Order Form.
- Make one check with the full amount payable to LCSI.
- Send everything to LCSI at the address listed on the form.

### Q. How much is the shipping and handling charge?

- A. In order to determine the total shipping charge, calculate 8% of your total order. Please remember that there is a \$10 minimum shipping charge.

### Q. Why must I place a minimum order of \$125?

- A. In order to keep prices low, we need to set a minimum order of \$125. LCSI uses independent warehousing and shipping companies and the cost to process smaller orders is very high.

### Q. What if I still have questions? Who do I call?

- A. Call LCSI at 1-800-321-5646 and we'll be happy to answer all your questions.

**FOR TEACHER**  
**LCSI's Home Use Option School Order Form**

Because your school is a registered LCSI site license holder, LCSI is happy to offer your students the opportunity to purchase single copies of LCSI software for home use at these unbelievably low prices\*. **TAXES INCLUDED**
